

As part of the overall Community Fund consultation, the following events are a chance for interested parties to come along for an informal chat about the proposed Fund, to discuss funding priorities, individual project ideas and provide feedback.

The physical events are drop-ins, so please come along to any of these within the designated times or, to book an appointment for a virtual event, please email hornseathree@grantscape.org.uk with your availability.

These events are intended for those members of community groups which are located, or have a project idea for delivery, within the designated funding zone.

Please view the map on GrantScape's website, to check before you attend.
